Judge Yost Opens the Campaign.

JUDGE W. H. YOST, as announced spoke here yesterday in the interest of the candidacy of Hon. James R. Hindman, the National Democratic Candidate for Clerk of Court of Appeals.

A good crowd assembled and those of the silver Democrats who were present seemed favorably impressed with the Judge's telling arguments and entertaining and witty delivery.

Hon. Frank Dudley, of Winchester, the National Democratic Party's candidate for State Senator in this, the 28th Senatorial District also made a short speech. Mr. Dudley said he would if elected, support legislation favorable to free turnpikes.

The Lexington Argonaut, erstwhile a red-hot silver paper, says that the currency issue is dead in Fayette politics.

Mrs. Mary Ellen Lease, who made free silver speeches last year has caught the gold fever and is going to Alaska next Spring. One by one the silver leaders are deserting the cause.

An exchange says that evangelist Sam Jones has been stung on the mouth by a bee. It is hoped that the sting will take some of the vulgarity out of Sam.

The fact that the waterworks at Frankfort have been threatened with total destruction by dynamite will furnish the newspaper paragraphers a rare chance for a thrust at the Kentuckian's supposed contempt for water for drinking purposes.

A DISPATCH from Bryan, O., states that the Populists of Williams county have formerly accepted the offer of fusion made by the Democratic Convention two weeks ago. Candidates for Representative, Commissioner and Infirmary Director were recommended, and the fusion was completed. Fusion seems to be the Bryan specialty.

The Courier-Journal says: "Mr. Bryan now says the price of wheat is regulated by supply and demand. He is right, for once. But last year he insisted that the price of wheat was regulated by the price of silver and ridiculed the sound-money men for saying that it was regulated by supply and demand. Mr. Bryan is learning."

MR. BRYAN announced that he was more exhausted by his efforts in promoting fusion last week at Lincoln, Neb., between the Populists, silver Republicans and silver Democrats, than he has been since the silver campaign was begun a year ago. Bryan scarcely had time to eat a meal or close his eyes for twenty-four hours. And yet the silver press in Kentucky has a spasm if fusion between sound money Democrats and Republicans is suggested.

July and August show a lower average of liabilities per failure than has ever been known in any year, or even in a quarter of the twenty-five years R. G. Dun & Co. have kept quarterly records. The improvement is well distributed, extending to nearly every important branch of business. For the past week Dun reports 191 failures, against 334 for the corresponding week last year. Bradstreet's reports 192 against 336 last year.

Scott's Emulsion

is made up of the most essential elements that go to nourish the body. Where the appetite is varying or lacking, it increases it, and where digestion is weak, it aids it to perform its function in a more vigorous way. It enriches the blood, makes healthy flesh and cures chronic coughs and colds by making it possible for the body to resist disease. Our friends tell us "IT WORKS WONDERS" but we never like to over-state the merits of our remedy even when it has been tested and tried for over twenty-five years. If you will ask for it, we will send you a book telling you more about the subject than we can put in a few words.

Go to your druggist for Scott's Emulsion. Two sizes, 50 cts. and \$1.00.

THE wheat yield of the United States is estimated at 500,000,000 bushels, and a writer of a statistical turn of mind figures that a freight car large enough to haul the crop would reach from New York to San Francisco. About 200,000,000 bushels of the crop will be shipped to Europe. It is estimated that the farmers will get \$300,000,000 just for the wheat crop this year. His trifling sum should stifle the calamity howl for a few minutes.

A Railroad Official's Experience.

MR. EDWARD EDMONDS, long connected with railroad construction in Nebraska, writes: "My heart troubled and pained me for 19 years. Shortness of breath was the constant and most common symptom. Intense, excruciating pain, generally followed any severe exertion. Faintness, hunger without any appetite; fluttering that made me clutch my breast, and palpitation that often staggered me as if I would fall, were frequent attacks. Again, everything would turn black if I arose from a stooping posture quickly. Sleepless nights with their prostrating unrest were numerous and I could get no rest day or night. I consulted leading physicians and tried advertised remedies. They gave me no relief. One of Dr. Miles' circulars described my case so exactly that I took Dr. Miles' New Heart Cure and I am now a well man. I hope every one troubled with heart disease will try Dr. Miles' remedies. If they will write me personally, I will gladly give them full details of my experience." EDW. EDMONDS.
